

Center Independent School District Acceptable Use Policy (AUP)

Center ISD is providing users, including students and employees, access to the district's electronic network. This network includes Internet access, computer services, videoconferencing, technology equipment and related equipment for educational purposes. Technology equipment includes district provided equipment as well as personal devices. The purpose of this network is to assist in preparing users for success in life and work in the 21st century by providing them with electronic access to a wide range of information and the ability to communicate with people throughout the world. This document contains the rules and procedures for students' and district employee's acceptable use of the Center ISD electronic network.

- The Center ISD electronic network has been established for limited educational purpose. The term "educational purpose" includes classroom activities, career development, and limited high-quality self-discovery activities.
- The Center ISD electronic network has not been established as a public access service or a public forum. Center ISD has the right to place reasonable restrictions on material that is accessed or posted throughout the network.
- Parent/guardian permission is required for all students under the age of 18. Access to the district network is a privilege — not a right.
- It is presumed that all users including students with signed parental permission and staff will honor this Acceptable Use Policy. The district is not responsible for the actions of users who violate the standards outlined in this policy.
- The district reserves the right to monitor all activities on this electronic network. Users will indemnify the district for any damage that is caused by users' inappropriate use of the network.
- Users are expected to follow the same rules, good manners, and common sense guidelines that are used with other daily school activities as well as the law in the use of the Center ISD electronic network. Users utilizing personal devices must use the CISD designated filtered wireless network at all times.
- It is the responsibility of all Center ISD professional staff to educate all students about appropriate online behavior, including interacting with other individuals on social networking websites and in chatrooms and cyberbullying awareness and response. This responsibility can be carried out in a variety of ways such as annual training sessions, one-on-one training with students and/or with educational videos and literature. It is also the responsibility of CISD professional staff to monitor a student's online behavior during school hours and at school activities.

General Unacceptable Behavior

While utilizing any portion of the Center ISD electronic network, unacceptable behaviors include, but are not limited to, the following:

- Users will not post information that, if acted upon, could cause damage or danger of disruption.
- Users will not engage in personal attacks, including but not limited to prejudicial, bullying, or discriminatory attacks.
- Users will not harass another person. Harassment is persistently acting in a manner that distresses or annoys another person. If a user is told by a person to stop sending messages, they must stop.
- Users will not knowingly or recklessly post false or defamatory information about a person or organization.
- Users will not use criminal speech or speech in the course of committing a crime such as threats to the president, instructions on breaking into computer networks, child pornography, drug dealing, purchase of alcohol, gang activities, threats to an individual, etc.

- Users will not use speech that is inappropriate in an educational setting or violates district rules.
- Users will not abuse network resources such as sending chain letters or "spamming."
- Users will not display, access or send offensive messages or pictures.
- Users will not use the Center ISD electronic network for commercial purposes or to offer, provide, and purchase products or services through this network.
- Users will not use the Center ISD electronic network for political lobbying. Users may use the system to communicate with elected representatives and to express their opinions on political issues.
- Users will not attempt to access non-instructional district systems, such as student information systems or business systems unless it is an employment requirement.
- Users will not use any wired or wireless network (including third party internet service providers) with equipment brought from home.
- Users will not use district equipment, network, or credentials to threaten other users, or cause a disruption to the educational program.
- Users will not use the district equipment, network, or credentials to send or post electronic messages that are abusive, obscene, sexually oriented, threatening, harassing, damaging to another's reputation, illegal or that could be considered to be bullying.

E-Mail

- E-mail for students in the elementary and middle school grades will only be provided through a teacher or classroom e-mail account.
- High school students may be provided with e-mail accounts through the district network, with the approval of the building level administrator for specific educational projects or activities.
- Users will not establish or access Web-based e-mail accounts on commercial services through the district network unless such accounts have been approved for use by the building-level administrator.
- Users will not repost a message that was sent to them privately without the permission of the person who sent them the message.
- Users will not post private information about another person.

World Wide Web

- Elementary School Level - Access to information for students on the Web will generally be limited to pre-screened sites that are closely supervised by the teacher.
- Middle and High School Level - Access to information for students on the Web will generally be provided through prescreened sites and in a manner prescribed by the building level administrator.

Real-time, Interactive Communication Areas

- Students may use chat or instant messaging, but only under the direct supervision of a teacher or in a monitored environment that has been established to support educational activities and that has been approved by the district or building level administrator.

Web Sites

- Elementary and Middle School Level - Group pictures without identification of individual students are permitted. Student work may be posted with either student first name only or other school-developed identifier (such as an alias or number).
- High School Level - Group or individual pictures of students with student identification are permitted with parental approval. Parents of high school students may elect to have their child assigned to the elementary/middle school level of use.

- Material placed on user Web pages is expected to meet academic standards of proper spelling, grammar, and accuracy of information.
- Material (graphics, text, sound, etc.) that is the ownership of someone other than the user may not be used on Web sites unless formal permission has been obtained.
- All user Web pages should have a link back to the home page of the classroom, school or district, as appropriate.

Personal Safety

- Users will not share personal contact information about themselves or other people. Personal contact information includes address, telephone, school address, or work address.
- Elementary and middle school students will not disclose their full name or any other personal contact information for any purpose.
- High school students will not disclose personal contact information, except to education institutions for educational purposes, companies or other entities for career development purposes, or without specific building administrative approval.
- Students will not agree to meet with someone they have met online.
- Students will promptly disclose to a teacher or other school employee any message received that is inappropriate or makes the student feel uncomfortable.

System Security

- Users are responsible for their individual accounts and should take all reasonable precautions to prevent others from being able to use them. Under no conditions should users provide their password to another person.
- Users must immediately notify a teacher or the system administrator if they have identified a possible security problem. Users should not go looking for security problems, because this may be construed as an illegal attempt to gain access.
- Users will not attempt to gain unauthorized access to any portion of the Center ISD electronic network. This includes attempting to log in through another person's account or access another person's folders, work, or files. These actions are illegal, even if only for the purposes of "browsing".
- Users will not make deliberate attempts to disrupt the computer system or destroy data by spreading computer viruses or by any other means. These actions are illegal.
- Users will not attempt to access Web sites blocked by district policy, including the use of proxy services, software, or Web sites.
- Users will not use sniffing or remote access technology to monitor the network or other user's activity.

Software and Files

- Software is available to users to be used as an educational resource. No user may install, upload, or download software without permission from the district technology department.
- A user's account may be limited or terminated if a user intentionally misuses software on any district-owned equipment.
- Files stored on the network are treated in the same manner as other school storage areas, such as lockers. Routine maintenance and monitoring of the Center ISD electronic network may lead to discovery that a user has violated this policy or the law. Users should not expect that files stored on district servers are private.

Technology Hardware

- Hardware and peripherals are provided as tools for users to use for educational purposes. Users are not permitted to relocate hardware (except for portable devices), install peripherals or modify settings to equipment without the consent of the district technology department.

Vandalism

- Any malicious attempt to harm or destroy data, the network, other network components connected to the network backbone, hardware or software will result in cancellation of network privileges. Disciplinary measures in compliance with the district's discipline code and policies will be enforced.

Plagiarism and Copyright Infringement

- Users will not plagiarize works found on the Internet. Plagiarism is taking the ideas or writings of others and presenting them as if they were the users'.
- District policies on copyright will govern the use of material accessed and used through the district system.
- Copyrighted material will not be placed on any system without the author's permission. Permission may be specified in the document, on the system or must be obtained directly from the author.

Videoconference

- Videoconferencing is a way that users can communicate with other students, speakers, museums, etc. from other parts of the country and the world. With videoconferencing equipment, users can see, hear, and speak with other students, speakers, museum personnel, etc. in real-time.
- Videoconference sessions may be videotaped by district personnel or by a participating school involved in the exchange in order to share the experience within ours or their building or district.
- Users' voices, physical presence, and participation in the videoconference are transmitted to participating sites during each session. Rules and procedures relative to acceptable use and behavior by users apply during all videoconference sessions.

User Rights

- Users' right to free speech applies to communication on the Internet. The Center ISD electronic network is considered a limited forum, similar to the school newspaper, and therefore the district may restrict a user's speech for valid educational reasons. The district will not restrict a user's speech on the basis of a disagreement with the opinions that are being expressed.
- An individual search will be conducted if there is reasonable suspicion that a user has violated this policy or the law. The investigation will be reasonable and related to the suspected violation.

Process

- The district will cooperate fully with local, state, or federal officials in any investigation related to any illegal activities conducted through the district network.
- In the event there is an allegation that a user has violated the district acceptable use regulation and policy, the user will be provided with a written notice of the alleged violation. An opportunity will be provided to present an explanation before a neutral administrator (or student will be provided with notice and an opportunity to be heard in the manner set forth in the disciplinary code).
- Disciplinary actions will be tailored to meet specific concerns related to the violation and to assist the user in gaining the self-discipline necessary to behave appropriately on an electronic network.

Violations of the acceptable use regulation and policy may result in a loss of access as well as other disciplinary or legal action.

- If the violation also involves a violation of other provisions of other school rules, it will be handled in a manner described in the school rules. Additional restrictions may be placed on a user's access and usage of his/her network account.

Limitation of Liability

- The district makes no guarantee that the functions or the services provided by or through the district network will be error-free or without defect. The district will not be responsible for any damage suffered, including but not limited to, loss of data or interruptions of service.
- The district is not responsible for the accuracy or quality of the information obtained through or stored on the network. The district will not be responsible for financial obligations arising through the unauthorized use of the network.

Filtering

Sites accessible via the computer/network/Internet may contain material that is illegal, defamatory, inaccurate or controversial. Each District computer with Internet access has filtering software that blocks access to visual depictions that are obscene, pornographic, inappropriate for users, or harmful to minors, as defined by the federal Children's Internet Protection Act. The District makes every effort to limit access to objectionable material; however, controlling all such materials on the computer/network/Internet is impossible, even with filtering in place. With global access to computers and people, a risk exists that users may access material that may not be of educational value in the school setting. The Center ISD Internet connection is the only system to be used in schools. No commercial Internet accounts may be used.

Violations of this Acceptable Use Policy

Violations of this policy may result in loss of access as well as other disciplinary or legal action. Users' violation of this policy shall be subject to the consequences as indicated within this policy as well as other appropriate discipline, which includes but is not limited to:

- Use of district network only under direct supervision
- Suspension of network privileges
- Revocation of network privileges
- Suspension of computer privileges
- Suspension from school (student only)
- Expulsion from school (student only)
- Legal action and prosecution by the authorities
- Consequences related to CISD Board policy and Educator Code of Ethics

The particular consequences for violations of this policy shall be determined by the school administrators. The superintendent or designee and the board shall determine when school expulsion and/or legal action or actions by the authorities are the appropriate course of action.
